Sign Of A Good Year To Come!

Centennial Free University — 1971

If Centennial Free University is any indication of what 1971 holds in store, then 1971 should indeed be an interesting and exciting year.

Because of continuously

changing last-minute details, it has been impossible to publish an accurate list of Centennial Free University classes well in advance. But now, here at least

is the final crystallized, concrete program for Centennial Free University 1971. The discussion topics shown below are those topics that you, the

students, have asked most often to hear. If you look at the topics closely, you'll find something of interest to all UMR students, whether they be students of

engineering, students of the humanities or social sciences, students of the "co-ed" educational science, or what have you.

New Telephone System In Operation At UMR

The University of Missouri-Rolla's new campus Centrex telephone system went into effect Wednesday, January 6.

Joe Wollard, UMR business officer, made the first telephone call, using the system at 9 a.m. in a ceremony in Parker Hall.

In the new Centrex system, UMR will have its own central operator. Calls can go through the operator and be transferred to campus stations or calls can come into campus stations without going through the operator. Calls coming into stations directly can be transferred to other stations. Stations may call other stations on campus by dialing the last

four digits of the seven digit number. The University Information number, available 24 hours a day, will be 341-4111. The public is encouraged, however, to dial the stations directly rather than dialing the UMR operator.

According to Charles White, United Telephone Company district manager in Rolla who has coordinated the new UMR system, the Centrex system will take some load off the Rolla exchange and will allow UMR greater flexibility in its telephoning. UMR has been in the regular Rolla exchange without a central operator and has not been able to switch calls from station to station.

Attention '71 Grads Want A Job???

Effective during the spring semester, 1971, a new priority interview sign-up system will be used in the Placement Center. The system will operate in this way:

1. Students expecting to interview during the spring semester should pick four employers in whom they are most strongly interested. Check the list of all spring semester visits scheduled in the Placement Manual, or on a supplemental mimeographed list which will be distributed before classes begin at the beginning of the spring semester.

2. Double check to be sure the employer has not cancelled his spring visit. Cancellation lists are posted in the Placement Center and on all departmental bulletin boards.

3. Interview sign-up schedules will be put out one day earlier than the usual sign up date, which has been one week prior to the interview date. Those students who want to use the priority system will be allowed early sign-ups. Others will sign under the regular system.

4. Students using the priority system will have one punch in their registration cards for each employer they interview under the priority sign-up system. When four punches show on the card, you have exhausted your priority signups.

5. If any schedule fills up on priority signups before all students get on who have picked this as a priority employer, they will be given priority on the stand-by list for a possible second interview schedule.

6. The practice of morning sign-up for morning interviews, and afternoon sign-up for afternoon interviews, which we have used during the fall semester on the first sign-up day, will still be followed, and will also apply to priority sign-ups.

Please consult the Placement Center staff if you have any questions regarding use of the above system. Spring semester interviews begin on Monday, January 25. Be sure you have registered with the Placement Service, and have prepared and submitted Interview Information forms, before you sign for any interviews in the Placement Center.

All action, and every moment of it a screen spectacular of the highest order. Major Dundee as the commander of a Union prison camp cannot use enough of his own men to pursue renegade Apaches who attack and run from across the Mexican border. With a ragtag army of outlaws, Confederate prisoners, and deserters he strikes out after the Indians, all the time being chased themselves by the French Lancers for violating Mexican territory. This action won't soon be matched! Stanley Kauffmann of NEW REPUBLIC said of the film, "dashing done, with that always appealing combo of realistic details and romantic sweep."

BIG DEAL you bet it is

OFFICIAL DEPARTMENT OF DEFENSE PHOTO. ORIGINALLY RELEASED IN NORTH VIETNAM.

No matter how you feel about the war in Vietnam, the fate of this prisoner of war is a big deal. To his wife and children. To his parents. To the signatories of the Geneva Conventions. To all rational people in the world.

The Red Cross is asking you to consider the matter of prisoners of war and those who are missing in action in Asia.

It is not asking you to take a stand on the war itself. It is asking you to ask Hanoi to observe the humanitarian provisions of the Geneva Conventions.

Ask Hanoi to release the names of men it holds prisoner. Ask them to allow prisoners to communicate regularly with their families. Ask them to repatriate seriously ill and wounded prisoners. Ask them to allow a neutral intermediary to inspect places of detention.
